NEW QUESTION: 2 What is the smallest element in a WBS called?
A. Work package
B. Assignment
C. Deliverable
D. Resource
Answer: A
Explanation: Explanation/Reference: Explanation: Answer option C is correct The smallest item in the WBS is called a work package. Work Breakdown Structure (WBS) A Work Breakdown Structure (WBS) is a visual decomposition of the project scope. The project scope is taken and broken down into smaller, more manageable units. Each of these units can be broken down again and again until you define the smallest item in the WBS called the work package. Project groups and the project's discrete work elements are defined in a way that helps organize and define the total work scope of the project. A WBS element may be a product, data, a service, or any combination. WBS also provides the necessary framework for detailed cost estimating and control along with providing guidance for schedule development and control. Answer option D is incorrect. Deliverable is what the project will create as a result of the work. Answer option A is incorrect. Assignments are the activities project team members are responsible for completing. Answer option B is incorrect. Resource is a person, material, or facility.
