Each COF-C02 exam dumps is unique and vitally important for your preparation.

NEW QUESTION: 1 On the Cisco Wireless LAN Controller GUI, what sub-menu option under the Command menu will transfer code and configuration files to the controller?**A.** Upload File**B.** Download File**C.** Download Configuration**D.** Upload Configuration**Answer: B**

NEW QUESTION: 2 One of the key stakeholders came to you asking you to add more metrics because she thinks that it would give the portfolio management a better view of the actual progress. For her the more metrics you have the better. What should your opinion be regarding this?**A.** You should agree, as having more metrics is better**B.** You should agree as having more metrics is better and because you do not want to say no to a key stakeholder**C.** You should disagree and escalate this to the governance board**D.** You should disagree and communicate a clear message to the stakeholder that it does not matter how many metrics you have as long as you can fully report the progress**Answer: D****Explanation:** Explanation It does not matter how many metrics you have as long as you have it all covered. The scenario here does not require escalation. The portfolio management office should be prepared to develop new metrics when appropriate and delete or change metrics that are no longer relevant to the stakeholders or that no longer support the organizational strategy and objectives. The quantity of metrics should not overwhelm the stakeholders to ensure the metrics are actively tracked and understood.

NEW QUESTION: 3 You have a server named Server1 that runs Windows Server 2012. Server1 has the File Server Resource Manager role service installed. Server1 has a folder named Folder1 that is used by the human resources department. You need to ensure that an email notification is sent immediately to the human resources manager when a user copies an audio file or a video file to Folder1. What should you configure on Server1?**A.** A file screen exception**B.** A file group**C.** A file screen**D.** A storage report task**Answer: C****Explanation:**
http://technet.microsoft.com/en-us/library/cc732349%28v=ws.10%29.aspx#BKMK_CreateFSA)
Con el Administrador de recursos del servidor de archivos (FSRM) se pueden crear filtros de archivos que impiden que los usuarios guarden archivos no autorizados en los volúmenes o carpetas. Puede crear filtros de archivos para evitar que los usuarios guarden archivos no autorizados en los volúmenes o carpetas. Hay dos tipos de aplicación de la pantalla de archivo:

aplicacion activa y pasiva. Aplicacion de analisis de archivos activo no permite al usuario guardar un archivo no autorizado. La aplicacion de analisis de filtro Pasivo a los archivos permite al usuario guardar el archivo, pero avisa al usuario de que el archivo no es un archivo autorizado. Puede configurar las notificaciones, como los eventos registrados en el registro de eventos o mensajes de correo electronico enviado a los usuarios y administradores, en el marco de la aplicacion de analisis de archivos activo y pasivo. (file screen enforcement.) <http://technet.microsoft.com/en-us/library/cc734419%28v=ws.10%29.aspxB>) A veces hay que aplicar excepciones al filtro de archivos, por ejemplo en un filtrado activo de archivos de video puede ser necesario permitir que un grupo pueda guardarlos por ser parte de su trabajo. Una excepcion al filtro de archivos es un tipo especial de filtro de archivos que anula cualquier filtrado de archivos que de otra aplicacion a una carpeta y todas sus subcarpetas en una ruta de excepcion designada. Es decir, se crea una excepcion a las normas derivadas de una carpeta principal. NOTA: No se puede crear una file screen exception en una carpeta principal en la que ya hay un File screen, habra que crearlo en una subcarpeta o modificar el File screen. <http://technet.microsoft.com/en-us/library/cc730822.aspxC>)Un grupo de archivos se utiliza para definir un espacio de nombres para una File Sreen, excepcion al filtro de file screen exception, o Files by File Group storage report. Consiste en un conjunto de patrones de nombres de archivo, que se agrupan por lo siguiente:Archivos para incluir: Archivos que pertenecen al grupoArchivos que se excluyen: Archivos que no pertenecen en el grupoPara mayor comodidad, puede crear y editar grupos de archivos durante la edicion de las propiedades de File Sreen, excepcion al filtro de file screen exception, o Files by File Group storage report.. Cualquier grupo de cambios en los archivos que se realicen a partir de estas hojas de propiedades no se limitan al elemento actual que esta trabajando. <http://technet.microsoft.com/en-us/library/cc770594.aspxD>)En el nodo Storage Reports Management, puede realizar las siguientes tareas:-Programar informes de almacenamiento periodicos que le permiten identificar las tendencias en el uso del disco.-Monitorizar intentos de guardar archivos no autorizados para todos los usuarios o un grupo seleccionado de usuarios.- Generar informes de almacenamiento al instante.Para configurar las notificaciones de correo electronico y algunas capacidades de informes, primero debe configurar las opciones del File Server Resource Manager.:To configure e-mail optionsIn the console tree, right-click File Server Resource Manager, and then click Configure Options. The File Server Resource Manager Options dialog box opens.On the E-mail Notifications tab, under SMTP server name or IP address, type the host name or the IP address of the SMTP server that will forward e-mail notifications and storage reports.If you want to routinely notify certain administrators about quota or file screening events or e-mail storagereports, under Default administrator recipients, type each e-mail address.Use the format account@domain. Use semicolons to separate multiple accounts.To specify a different "From" address for e-mail notifications and storage reports sent from File ServerResource Manager, under Default "From" e-mail address, type the e-mail address that you want to appear in your message.To test your settings, click Send Test E-mail.Click OK.<http://technet.microsoft.com/en-us/library/cc771212.aspx>
