Box 1: Dynamics 365 Workflow notifications  
You can configure the system to send email messages to users when workflow-related events occur.  
Note:  
\* Go to Navigation pane > Modules > System administration > Users > Users.  
\* In the list, find and select the desired record.  
\* On the Action pane, click User options.  
\* Click the Workflow tab. Make sure that the Notifications section is expanded. In the Notifications section, you can specify how you want the user to be notified about workflow-related events.  
Box 2: Dynamics 365 Field Service  
Supply Chain Management enables synchronization of business processes between Dynamics 365 Supply Chain Management and Dynamics 365 Field Service. The integration scenarios are configured by using extensible Data integrator templates and Common Data Service to enable the synchronization of business processes. Standard templates can be used to create custom integration projects, where additional standard and custom fields and entities can be mapped to adjust the integration and meet specific business needs.
