NEW QUESTION: 1 Which of the statements concerning proxy firewalls is correct? **A.** Computers establish a connection with a proxy firewall which initiates a new network connection for the client. **B.** Proxy firewalls increase the speed and functionality of a network. **C.** Proxy firewalls block network packets from passing to and from a protected network. **D.** Firewall proxy servers decentralize all activity for an application. **Answer: A**

NEW QUESTION: 2 As shown in the broadcast network, OSPF runs on four routers and is in the same area and on the same network segment. OSPF A DR and multiple BDRs will be automatically elected to achieve better backup results. **A.** Wrong **B.** Yes **Answer: A**

NEW QUESTION: 3 A user is displaying the CPU utilization, and Network in and Network out CloudWatch metrics data of a single instance on the same graph. The graph uses one Y-axis for CPU utilization and Network in and another Y-axis for Network out. Since Network in is too high, the CPU utilization data is not visible clearly on graph to the user. How can the data be viewed better on the same graph? **A.** Change the units of CPU utilization so it can be shown in proportion with Network **B.** It is not possible to show multiple metrics with the different units on the same graph **C.** Change the axis of Network by using the Switch command from the graph **D.** Add a third Y-axis with the console to show all the data in proportion **Answer: C** **Explanation:** Amazon CloudWatch provides the functionality to graph the metric data generated either by the AWS services or the custom metric to make it easier for the user to analyse. It is possible to show the multiple metrics with different units on the same graph. If the graph is not plotted properly due to a difference in the unit data over two metrics, the user can change the Y-axis of one of the graph by selecting that graph and clicking on the Switch option.

NEW QUESTION: 4 Cloud applications can use virtual networks and other structures, for hyper-segregated environments. **A.** True **B.** False **Answer: A**
