**NEW QUESTION: 1**A customer is planning a Service Cloud implementation. The customer's current database has the following number of records:\* 10 million cases\* 1 million accounts\* 3 million contactsWhen planning to migrate this data into Salesforce, what implications should be considered? (Choose 2)**A.** Related lists on the case object may be slow to populate**B.** Result may be slow when searching for records**C.** The Salesforce org may be slow during the data import**D.** Salesforce reporting speed may be affected**Answer: B,D**

**NEW QUESTION: 2**Your company publishes large files on an Apache web server that runs on a Compute Engine instance. The Apache web server is not the only application running in the project. You want to receive an email when the egress network costs for the server exceed 100 dollars for the current month as measured by Google Cloud Platform (GCP). What should you do?**A.** Use the Stackdriver Logging Agent to export the Apache web server logs to Stackdriver Logging.Create a Cloud Function that uses BigQuery to parse the HTTP response log data in Stackdriver for the current month and sends an email if the size of all HTTP responses, multiplied by current GCP egress prices, totals over 100 dollars. Schedule the Cloud Function using Cloud Scheduler to run hourly.**B.** Set up a budget alert on the project with an amount of 100 dollars, a threshold of 100%, and notification type of "email."**C.** Set up a budget alert on the billing account with an amount of 100 dollars, a threshold of 100%, and notification type of "email."**D.** Export the billing data to BigQuery.Create a Cloud Function that uses BigQuery to sum the egress network costs of the exported billing data for the Apache web server for the current month and sends an email if it is over 100 dollars.Schedule the Cloud Function using Cloud Scheduler to run hourly.**Answer: D****Explanation:**The Apache web server is not the only application running in the project, so the budget alert is not suitable because it is related to all applications and not only the network traffic as needed.

**NEW QUESTION: 3**Two catalogs, named A and B, are on your computer. Catalog A is open and you want to access some files from Catalog B and import them into Catalog A.Which command should you choose?**A.** File > Import Photos From Device**B.** File > Open Catalog**C.** File > Import Photos From Disk**D.** File > Import Photos From Catalog**Answer: D**
