**NEW QUESTION: 1** DRAG DROP Case Study This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided. To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other question on this case study. At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next sections of the exam. After you begin a new section, you cannot return to this section. To start the case study To display the first question on this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question. Overview General Overview Fabrikam, Inc. is a financial services organization. Fabrikam recently purchased another financial services organization named Contoso, Ltd. Fabrikam has 2,000 users. Contoso has 500 users. Windows 10 and Office 2016 are deployed to all computers. Physical Locations Fabrikam has an office in the United States. Contoso has an office in the United Kingdom. The offices connect to each other by using a WAN link. Each office also connects directly to the Internet. Existing Environment Active Directory The network of Fabrikam contains an Active Directory forest. The Active Directory Environment of Contoso was migrated to the Active Directory forest of Fabrikam. The forest contains three domains named fabrikam.com, contractor.fabrikam.com, and contoso.com. All domain controllers run Windows Server 2008 R2. All contractors outsourced by Fabrikam use the user principal name (UPN) suffix of contractor.fabrikam.com. If Fabrikam hires the contractor as a permanent employee, the UPN suffix changes to fabrikam.com. Network The network has the following configurations: External IP address for the United States office: 192.168.1.100 External IP address for the United Kingdom office: 192.168.2.100 Internal IP address range for the United States office: 10.0.1.0/24 Internal IP address range for the United Kingdom office: 10.0.2.0/24 Active Directory Federation Services (AD FS) AD FS and Web Application Proxies are deployed to support an app for the sales department. The app is accessed from the Microsoft Azure portal.

Office 365 Tenant You have an Office 365 subscription that has the following configurations:  
Organization name: Fabrikam Financial Services  
Vanity domain: Fabrikamfinancialservices.onmicrosoft.com  
Microsoft SharePoint domain: Fabrikamfinancialservices.sharepoint.com  
Additional domains added to the subscription: Contoso.com and fabrikam.com  
Requirements  
Planned Changes  
Fabrikam plans to implement the following changes:  
Deploy Azure AD Connect.  
Move mailboxes from Microsoft Exchange 2016 to Exchange Online.  
Deploy Azure multi-factor authentication for devices that connect from untrusted networks only.  
Deploy the Azure Authenticator app and the Company Portal app to all mobile devices.  
Customize the AD FS sign-in webpage to include the Fabrikam logo, a helpdesk phone number, and a sign-in description.  
Once all of the Fabrikam users are replicated to Azure Active Directory (Azure AD), assign an E3 license to all of the users in the United States office.  
Technical Requirements  
Contoso identifies the following technical requirements:  
When a device connects from an untrusted network to <https://outlook.office.com>, ensure that users must type a verification code generated from a mobile app.  
Ensure that all users can access Office 365 services from a web browser by using either a UPN or their primary SMTP email address.  
After Azure AD Connect is deployed, change the UPN suffix of all the users in the Contoso sales department to fabrikam.com.  
Ensure that administrators are notified when the health information of Exchange Online changes.  
Use Office 365 reports to review previous tasks performed in Office 365.  
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.  
You need to identify which report must be used to view previous tasks performed in Office 365. Which type of report should you use for each task? To answer, drag the appropriate reports to the correct tasks. Each report may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
